

## Free To Live

For this time we say goodbye

To this life we know will never be the same

You will change and so will I as the price for liberty is paid

Hold me close for a while and we'll dream of the day that you'll return

We pray for God to guide us please stay and walk beside us

As we hold to this passion to be

Chorus

Free to live, free to love and to do all the things we're dreaming of

Free to worship where we go beyond these boundaries we know

Bridge

For the fathers and mothers sisters and brothers

And so many more that we will never know

Hand in hand with God you fight for their freedom for their rights

And only God can know the price you'll pay

Chorus

To be free, free to love and to do all the things we're dreaming of

Free to worship where we go beyond these boundaries we know

In God we trust for liberty to be free, to be free, to be free
